

## PRESS RELEASE

### ROFIN-BAASEL Lasertech moves into new headquarters in Gilching

Munich/Germany, Oktober 10, 2016: Industrial laser specialist ROFIN-BAASEL Lasertech GmbH & Co. KG and its more than 260 employees are moving to the Gilching business park. With an area of 17.000 m<sup>2</sup>, the new site offers considerable room for growth - something the world-wide operating technology company was looking for for quite some time.

#### Modern production facilities with renewable energy supply

The new premises feature 8.000 m<sup>2</sup> production area, including a 1.000 m<sup>2</sup> clean room. This helps the laser manufacturer to unite and streamline its production which used to be distributed to three different sites. Additionally, the new facilities meet the increasingly important requirements of environmentally friendly production. A photovoltaic system with an annual yield of 140 kWp, a ground water heat pump and a wood chip heating system partly cover the energy demand from renewable sources.

#### Short distances, efficient communication

Fig. 1: 4000 m<sup>2</sup> office area

The new high-tech location also features a new application lab for joint process evaluation and development with customers and partners. 4.000 m<sup>2</sup> office area for research and administration allow for short communication channels, faster response times and streamlined internal logistics.

Conversion measures are almost finished, arrangements for relocation are already in full swing. Beginning October 17th, customers, suppliers and partners will find ROFIN-BAASEL Lasertech GmbH & Co. KG in business park Gilching south, Zeppelinstr. 10-12, 82205 Gilching, Germany. The new central telephone number is 08105/3965-0.
