

PRESS RELEASE

For Immediate release October 14, 2014

For more information contact: Sue Lewis – Marketing Manager, 330.458.2886, slewis@combi.com

CANTON, Ohio Combi Packaging Systems has just expanded its case sealer offering with the introduction of a TBS 100 H sealer. For customers who require extra security for their sealed cases, the Combi H sealer securely seals both the top and bottom of RSC and HSC cases with adhesive tape.

“After identifying an opportunity to provide a case sealer that adds additional security to cases, Combi consulted with our 3M™ counterparts to design a packaging solution that is offered as both a semi-automatic or fully automatic case sealer using 3M™ Accuglide™ tape heads.” Bill Mitchell, Director of Engineering.

Using the same heavy duty tubular steel frame as other Combi systems, the TBS is built tough for years of top performance on the end of manufacturing lines.

Combi Packaging Systems LLC is a leading U.S. manufacturer of end-of-line packaging equipment, with more than 35 years’ service in [case erectors](#), [case sealers](#), [case packers](#), [tray formers](#), [ergonomic hand packing stations](#), and [case labelers](#). Combi Packaging Systems LLC was formed as a joint venture between [3M](#) and The MJ Maillis Group in 1999.
