

## **Bomplastic Will Offer More Diversified and Innovative Products After Acquiring a Comexi F2 MB**

**The Brazilian company, with 27 years of experience in the sector, chooses the Comexi flexographic press for its production quality and development**

**Girona, March 24, 2022.-** Comexi, a specialist in solutions for the flexible packaging printing and converting industry, and Bomplastic, a company that specializes in practical and innovative solutions for the flexible packaging sector, have reached an agreement for the Brazilian company to acquire a Comexi F2 MB flexographic press. This acquisition will allow Bomplastic to offer more diversified and innovative products, thus meeting the needs of various market niches.

"We are very pleased with the acquisition of a Comexi F2 MB", explains César Mangaravite, manager of Bomplastic, who highlights that "we are among the leading Brazilian companies in the packaging sector, and this flexographic press will allow us to enter new markets". In this regard, Mangaravite adds that the Comexi F2 MB will contribute to the development of the company, which invariably pursues continuous improvement, as well as innovative and distinctive technologies. "We are going to generate more employment opportunities in the region", concludes the manager of the Brazilian company.

The quality of production and development are the two main principal characteristics that have made Bomplastic choose the Comexi F2 MB; the Brazilian company will use the flexographic press to print packaging of high-quality and high-definition. Mangaravite highly and positively values the relationship between the two companies. Furthermore, he expresses that Bomplastic is interested in acquiring more Comexi machinery in the future, thus reinforcing the new partnership between the two companies.

“At Comexi Brazil we are very delighted with this new business relationship; we are certain that the acquisition of an F2 MB press by Bomplastic will be successful. This is the first step of many”, explains Ariston Galli, the commercial manager of Comexi Brazil.

Bomplastic, founded in 1994 in the city of Bom Jesus do Itabapoana (Rio de Janeiro), has 27 years of experience in the development, manufacturing, and production of plastic containers. The company prints high-performance technical films, polyethylene and polypropylene containers, laminates, 3-barrier protected coextruded materials, food containers, and a variety of bags. "We produce 350 tons per month as a result of our investment in state-of-the-art machinery," says the company's manager. Bomplastic has a strategic position in Brazil, as it is located on the border between the states of Rio de Janeiro and Espírito Santo. Furthermore, the company is a few kilometers from the border with the state of Minas Gerais.

The Comexi F2 MB press is an advanced machine designed to satisfy the print needs of medium runs in the flexible packaging sector of the retail and wholesale channel. This flexographic press shares the patented FLEXOEfficiency concepts of ergonomics and accessibility, as well as the level of performance and robustness with the rest of the Comexi F2 range. This is all integrated with a simplified drying system design. Without a doubt, the Comexi F2 MB is a highly productive and performing machine.

**About Comexi – [www.comexi.com](http://www.comexi.com)**

**Comexi, founded in 1954, has extensive experience in manufacturing equipment for the flexible packaging conversion industry. As a world leader, it operates five product lines, each specialized in a different conversion process: flexography printing, offset printing, laminating, slitting, and digital services. Furthermore, it has a Service and Technical Assistance Business Unit that offers service 24 hours a day, 7 days a week.**

**The company has two production plants: one in Riudellots de la Selva (Girona, Spain) and another one in Montenegro, in the State of Rio Grande do Sul (Brazil). There are also two**

offices in Miami (USA) and Moscow (Russia). Moreover, Comexi is represented in more than 100 countries. This commercial network allows us to have proximity to our customers in order to optimally respond to their needs.

Comexi includes the Manel Xifra Boada Technological Centre, Comexi CTec, where the company provides support and shares its knowledge with various groups involved in the flexible printing industry process.
