

## SECURA LABELS

We have a total of three Focus presses, all Proflex 13", spanning in age from 2 Months - 10 years:

- 1 x 2 Colour
- 1 x 4 Colour
- 1 x 6 Colour

We have always been impressed with the service levels, a major consideration in our most recent purchase of the 6 Colour Press. On occasion Focus have turned around repairs within the same staff at Focus have cemented our relationship.

The improvements to be seen on the latest presses are testament to the fact that Focus are striving to improve, and also listening to customers.

We at Secura would have no hesitation to recommend Focus as a solid, reliable machine.
