TRUSTED MANUFACTURER FOR  
STICKER LABELING MACHINES

# Automatic Labeling Machine

Round Bottle (Upto 1 Ltr.)

## Specifications & Features

1. Product suitability: Round Bottle/Round container (Upto 1Ltr.)
2. PLC based control panel.
3. Touch screen HMI operating panel.
4. All motors variable speeds with HMI.
5. Body & Structure made of SS:304
6. Wheel & Leveling pad assembly attached with machine.
7. All dispensers adjustable with handle.
8. Label dispensers with Servo motors.
9. Motor Gear box - Bonfiglioli.
10. Sensors- Make Leuze electronics/Sick.
11. All live parts enclosed with ss covers.
12. Conveyor- Length approx. 6 feet, width-115mm (Plastic slat/SS slat).
13. Massage belt pressure setting with single handle.
14. Compact & Robust Structure, simplified operation, Low maintenance.

## Round Bottle/Round Container (Above 1 Ltr.)

### Specifications & Features

1. Product suitability: Round Bottle/Round container (Above 1Ltr.).
2. PLC based control panel.
3. Touch screen HMI operating panel.
4. Pneumatic roller assembly to rotate the jar/bottle (need air pressure approx. 6-8 bar).
5. All motors variable speeds with HMI.
6. Body & Structure made of SS:304.
7. Wheel & Leveling pad assembly attached with machine.
8. All dispensers adjustable with handle.
9. Label dispensers with Servo motors.
10. Motor Gear box - Bonfiglioli.
11. Sensors- Make Leuze electronics/Sick.
12. All live parts enclosed with SS covers.
13. Conveyor- Length approx. 6 feet (Plastic slat/SS slat).
14. Compact & Robust Structure, simplified operation, Low maintenance.

## Flat Bottle - Front/Back Labeling

### Specifications & Features

1. Product suitability: Flat Bottles.
2. Bottle feeding with – Nylon screw or left right conveyor set (depend upon product).
3. Adjustable Top conveyor/height adjustment with handle.
4. Adjustable bottle guides.
5. PLC based control panel.
6. Rotating Touch screen HMI operating panel.
7. Body & Structure made of SS:304.
8. Wheel & Leveling pad assembly attached with machine.
9. All dispensers adjustable with handle.
10. Label dispensers with Servo motors.
11. Motor Gear box-Bonfiglioli (Speed control with VFD)
12. Sensors- Make Leuze electronics/Sick.
13. All live parts enclosed with SS covers.
14. Conveyor- Length approx. 8 feet, width-114mm (Plastic slat/SS slat).
15. Compact & Robust Structure, simplified operation, Low maintenance.

## Top Side Labeling Machine

### Specifications & Features

1. PLC based control panel.
2. Touch screen HMI operating panel.
3. All motors variable speeds with HMI.
4. Body & Structure made of SS:304.
5. Wheel & Leveling pad assembly attached with machine.
6. Dispenser adjustable with handle.
7. Label dispensers with Servo motors.
8. Motor Gear box-Bonfiglioli (Speed control with VFD).
9. Sensors- Make Leuze electronics/Sick.
10. All live parts enclosed with ss covers.
11. Conveyor- Length approx. 6 feet, (PVC Belt).
12. Adjustable conveyor guides.
13. Compact & Robust Structure, simplified operation, Low maintenance.

# Automatic Labeling Machine

Front-Back Labeling + Round Labeling

Front-Back Labeling + Top Labeling

Front-Back Labeling + Round Labeling + Top Labeling

## Specifications & Features

1. Product suitability: This is a customize Labeling machine model- we are providing a machine which can be used for the labeling of front-back on flat bottle, top labeling & if required it can use for labeling of round bottles/round jar. If you are buying this machine then you don't need to purchase diff. diff. machine for diff. diff. bottles/jars. By this machine you can save the space as well as money.
2. PLC based control panel & Touch screen HMI operating panel.
3. Body & Structure made of SS:304.
4. All dispensers adjustable with handle.
5. Label dispensers with Servo motors.
6. Motor Gear box-Bonfiglioli.
7. Sensors- Make Leuze electronics/Sick.

# Automatic Labeling Machine

## Vial Labeling Machine

### Specifications & Features

1. PLC based control panel.
2. Touch screen HMI operating panel.
3. Single Motor driven System (Speed Control with VRD)
4. Body & Structure made of SS:304.
5. Vial Labeling with Screw Worm.
6. Wheel and Leveling pad assembly attached with machine
7. Label disprosser with Servo Motor.
8. Motor & Gear Box-Bonfiglioli.
9. All live parts enclosed with ss covers.
10. Compact & Robust Structure, simplified operation, Low maintenance.
