

## **PRESS RELEASE**

October 2016

**WORLD EXCLUSIVE: R400 Ultimate, unrivalled sleeve machine cutting and sleeving in a constant movement until the sleeve is placed onto the product!**

Production speed up to 24,000 pph! Free-flowing without reel breakage! Compact and reliable! The new R400 shrink sleeve applicator from PDC Europe is your productivity's secret weapon!

R400 delivers outstanding results - 450 ppm on 200 mm (length) shrink sleeves and up to 600 cpm on small bottles with a single head. The micro perforation patented cutting system easily copes with long cut lengths and/or thin gauge sleeves, for labelling, tamper evidence and bundling.

Its compact footprint, allows the new R400 from PDC Europe to fit neatly into most lines. It perfectly meets the high speed of demanding industries such as beverages, brewing and dairy, it is efficient, simple to use and totally reliable.

It offers low maintenance, change overs under 15 mn, tools-less, and it is able to use low gauged material.

“Among shrink sleeve applicators, the R400 is *the* reference” concluded Derek VANDEVOORDE, President of PDC Europe.
