

During All4Pack 2018 - Paris it will be possible to discover the latest innovations in the packaging industry, like the new **LSK 30 SF ERGON** automatic shrinkwrapper showcased by SMI

*A compact, efficient and ergonomic solution suitable for only film packaging needs.*

WATCH THE VIDEO

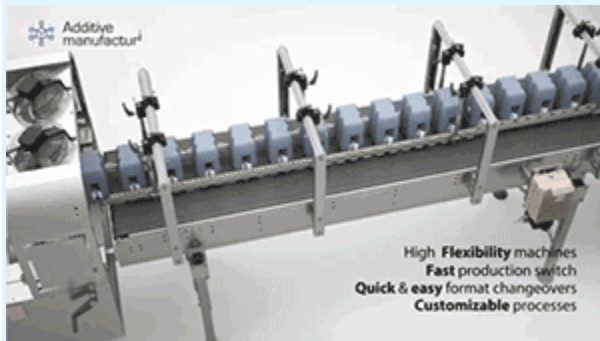

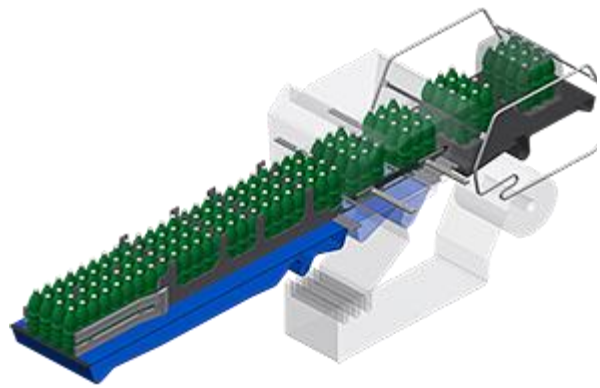

### Compactness

**Compact dimension** able to meet the needs of those who do not have large production spaces.

### Simple & smooth production

Machine equipped with an oscillating device lining up the loose products at the machine inlet.

**Better product control and smooth packaging process**

### Quick change over

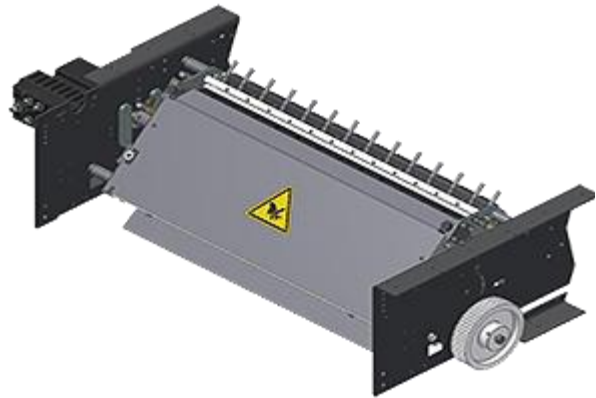

Manual change over device, ensuring a quick machine adjustment to handle different format.

**Efficient and economic production**

### Precision and easy control

The film cutting blade is equipped with a brushless motor which directly controls the blade motion.

**Precise cutting operation and easy maintenance**

### Low energy cost

The machine is equipped with high efficiency electrical motors.

**Better performance, reduces energy dissipation and lower consumption**
